County Board Of Education Here Met With Municipal Reeves & Clerks

For some time, the members of the Haliburton County Board of Education have wanted to meet with the Reeves, Councillors and Clerks of Haliburton County, to discuss education in general and the financial situation that we in the County presently find ourselves in, in particular. Therefore, the incoming Chairman, Mr. Leonard Salvatori, extended an invitation to all Reeves and Clerks of the County to attend a meeting in the Library of the Haliburton Highlands Secondary School on Wednesday, February 11, 1970, for the purpose of sharing information and viewpoints. Unfortunately, the evening was not a good one for travel, as we were experiencing one of the worst of the winter, and there has

been a good deal of influenza about, which effected the attendance. In spite of these adverse conditions, it was necessary to carry on with the meeting since most of the Board members' evenings for the next month are taken up with either Board or Committee meetings.

The meeting began with a welcoming speech by the chairman, Mr. Leonard Salvatori, who pointed out some of the difficulties experienced by the Board in its first year of operation. He reviewed some of the innovations brought into effect in the County schools and particularly mentioned that Kindergarten classes are now offered to all children in the County. The members are fully aware of the added cost of

establishing the classes for Harcourt, Glamorgan and Monmouth in the Cardif School as well as a joint class for Muskoka and the children from Sherborne et al, in Dorset. It is noted that these little children travel quite a distance to attend Kindergarten, but it was the feeling of the Board that you cannot offer Kindergarten in the Haliburton and Minden areas and not equalize the opportunity throughout the County.

The second venture is the establishment of Special Education classes. Mr. Wilkinson, Special Education Consultant for the Department of Education, spends two days per month in the County assessing students and setting up programmes. Mrs. Hazel Inglis of

(Continued on Page 8)

MINDEN'S "MR. SPEED" PAUL PRENTICE GRAND CHAMPION AT WOODBINE

Over this past weekend, Paul Prentice, Minden's fame in Snowmobile racing, cleaned up all the silverware along with over \$1,300 in prize money at New Woodbine Race track in Toronto.

Paul was the over all point winner with 2 firsts, 2 seconds and one third to win the Ontario Cup as Grand Champion.

This race was the most heavily contested race of the year with all the major factory teams from both Canada and the United States entered. The one and a half mile track was in good condition and made for some fast times. Young Prentice broke the land speed record at 75.6 miles per hour, only to have another driver brake this mark in the next race at 75.9 miles per hour.

The feature race of the day, was the big one which Paul won. This race was the pot of the line class E modified up to 800 c.c.

Paul added to his victories a week ago when he finished second in the 353 mile Pembroke to Haliburton Cross Country race, finishing only 11 minutes behind the winner. Only for some belt trouble, might have won this event as well.

It is quite amazing when one thinks of the factory teams with

their professional drivers, designers, engineers, etc. coming second best to Minden's "Mr. Speed" Paul Prentice. Congratulations on some fine driving, and honors for your home town.

MINDEN TO GET NEW DENTIST

It is good news to Minden and area residents that Mr. John Perc will open his Dental Practice here in Minden on May 15th., of this year.

Mr. Perc will graduate this spring from the Dentist College at the University of Toronto, and move to Minden to open his practice. He will be located just north of the Minden Water pumping station in a new modern building now being constructed by contractor Don Campbell.

Mr. Perc is expected to have all the latest and most modern equipment to compile with the needs of the people in the area.

He is somewhat familiar with the area, after spending his summer vacations working in the Highlands.

Mr. Perc will be a welcomed asset to the community, for his services are in great demand.

CARNARVON CUBS VISIT THE PRESS

Pictured above are a few of the Carnarvon Cub Pack, on the evening they visited the Progress Office. The boys asked many questions and enjoyed seeing their names made up in type. Always fascinating is the linotype machine, which Bobby Fletcher is sitting at in the picture. Others left to right are Tim Barnes, David Fennell, Frank Chambers, Mark Fennell. Leaders are Norm Wallace and Ron Fennell.

Highway 35

200' on Highway 35 approximately 13 miles North of Minden, overlooking Hall's Lake. The lot is level, nicely treed with approximately 150' in depth.

Price \$5500.00

Gull River Lots

Excellent cottage lots on this popular river, with access to Gull Lake offering miles of boating. Level lots, treed with 100' frontage. Low down payments.

Price \$2500.00

HERE AND THERE

with Fenwick Finch

It was with a great deal of regret I learned last week of Mrs. Grace McKay's retirement from the Minden Red Cross Hospital. I have had quite a few chances to appreciate the skill and kind-

ness that is part of Mrs. McKay's philosophy as a nurse and administrator. The Red Cross and Minden will be losing a skilled artisan and a citizen. To quote an old bromide, "Our loss will be someone else's gain." In this case it will be Dr. F. E. A. Griffiths, formerly of Minden who, I understand is going back into practice in Toronto. Mrs. McKay will be on his team.

I know that everyone in the community joins me in wishing Mrs. McKay the best of everything in her new spot.

Got quite a reaction on last week's remarking on "Graffiti" — there must be more of it around than I've seen lately, or maybe I have been in the wrong rest rooms. The majority of the examples I have been given could be repeated at a closed, certainly not here. They were clever however.

My good friend Tom Farmer left me a book to go through. This book was on "Graffiti" and is a collection of "selected scrawls from bathroom walls," they were collected by Robert Reisner and were well worth the one buck it costs you.

* * * *

It never ceases to amaze me the way the Government goes on and on about reducing expenses, they ask the workman to take less money, the producers to hold the line on prices. They gleefully overlook their own representative who recently voted themselves a substantial raise that most surely put them in Trudeau's "affluent society."

While on the subject of money — in the papers last weekend I noticed this. When the CBC retired Mr. Oulmet recently he was given six months salary as a retirement allowance. Further on the CBC, the administration over-estimated the hotel and motel space for Expo '67 by over \$148,000.00. Overtime is another weak spot of the CBC. The 1967-68 fiscal year showed a bill of \$6,995.00 (you read it right, almost 7 million bucks.) If that ain't a place for the Government to start I don't know where it's at.

Another point that I find amusing, (in a way) look at the articles and pictures that run in National Magazines extolling with amazement the fact that, in spite of this family of four, man and wife and two children only net \$10,000 or \$12,000 a year they manage to exist, even though they are a part of the "poor" Society. These magazine companies should come up in this area and see how most of us live on a good deal less than the ten grand they talk about.

* * * *

So much for money talk — no matter what, the Government will do what they wish and the average citizen is too apathetic to do anything about it.

Here's something else to think about — "more than a quarter of all Canadian Business have their assets under foreign control and that nearly two-thirds of the unionized labour force belong to U.S. controlled unions."

The next time anyone talks to you about two Canada's, one French and one English speaking — think of this, a little more of this treatment and we'll belong to the United States.

* * * *

Drive carefully so that you'll be around to enjoy our "washroom" poets this summer.

NEW SAFETY BOOKLET OUT FOR SNOWOBILERS

The Ontario Federation of Snowmobile Clubs announces the printing of a new cartoon safety booklet entitled — "Dangerous Dan and Safety Sam".

The Booklet has been published in co-operation with Molson's Brewery (Ontario) Limited and Ford Motor Company of Canada Limited.

The Booklet is designed to augment the Federation's Education Program and Operation S.O.C. (Snowmobile Operators Course), which it is running in conjunction with the Ontario Safety League. The Federation has received for the winter months, through the courtesy of Ford and Molson's, a van equipped to give Clinics throughout the province.

If further information is required, or copies of the safety booklet, please contact: V. R. Waring, Secretary, Ontario Federation of Snowmobile Clubs, 1525 O'Connor Drive, Toronto 374, Ontario.

TWO WEEKS LEFT FOR LICENCE PLATES

Last minute line-ups later this month for new motor vehicle licence plates could be worse than last February, the Ontario Department of Transport warned today.

The deadline for driving with 1969 plates is midnight, Saturday, February 28th. The plates have been on sale since December 1, 1969, at 281 issuing offices throughout Ontario.

The sale of 1970 plates for passenger cars, station wagons and motorcycles is lagging significantly behind sales at this time last year, and there are at least 76,000 more vehicles to be registered this year.

At the end of January, 529,876 sets of plates had been issued, or 25.5 per cent of this year's total of 2,077,945 applications.

In the first 11 months to 1969, 5,462 motorists were convicted of driving without current year plates affixed to their vehicles. The majority of these offences occurred shortly after last year's February 28th deadline for new plates. The penalty, on conviction, is a fine of no less than \$20 and not more than \$100.

Registration fees for 1970 plates are the same as last year — \$35 for eight-cylinder passenger cars and dual purpose vehicles, \$27.50 for six cylinder vehicles, and \$20 for four cylinder vehicles. The fee for motorcycles is \$10.

Where the ownership of a used vehicle is being transferred at the time of registration, a certificate of mechanical fitness will be required before plates can be issued. Vehicles previously licensed outside the province will also require such a certificate before being issued their first Ontario plates.

Salesmen Wanted

Sales help required either male or female, by one of the larger, well established, Real Estate Brokers. Successful applicants must be over 21 years of age, be prepared to take a course in the fundamental principals of Real Estate, and devote their full time to this career, in the Minden area.

Anyone interested kindly apply immediately to Box "B", Minden Progress, Minden, Ontario.

AN EXPERIENCE

Over the past few weeks everyone has been talking about the flu bug, heart conditions or illness of one kind or another, so I am not going to spoil the trend.

Since Thursday of last week up till Sunday, I spent my time in Room H512, Civic Hospital, Peterborough.

It all started out a year ago when my sniffer got plugged, and thought I had a bad case of hay fever, after seeing a specialist in Peterborough, Dr. Flak. I was informed that my sinuses were infected and a bone in my nose was causing the disturbance. On his advice I had the old snoot operated on.

The reason for the bone disorder was from the hockey wars, at which time I had it broken a couple of times.

Now this was going to be my first visit to hospital and I was looking forward to the experience very much, especially when Dr. Flak said it was quite a simple operation and would give me no discomfort. With this in mind I purchased a sexy pair of pyjamas, packed my bag, and whistled into Civic, taking a quick glance at some of the pretty nurses, thinking what a good time I'm going to have.

I was in a ward with three other gentlemen, Polish, Hungarian, and a Frenchman, we had a Swedish and a Dutch nurse. I almost felt I was at the United Nations. Everyone was quite friendly — I was pretty chirpy and had a good time, needling the nurses. That was Thursday night.

Friday morning, the day of the operation, the scene had changed, when they put me into one of those Hospital jump suits I knew the peace talks were over and the war had begun. This is when the nurses had their fun. Along with the usual blood tests, X-rays and other tests, it finally came down to the gritty, gritty, of things.

The little Dutch nurse said, "O.K. now its our turn, lets have you sunny side up." Now you don't have much room to maneuver in those jump suits, before I could make myself half decent — wham! wham! she hit me with two needles. Five minutes later I thought someone had passed me the pot pipe, I was on a quick trip.

Fifteen minutes later I was taken to the operating room when once again they gave me another needle, which put the lights right out.

The simple, not so very sore operation, turned out to be all the old editor was up to for that Friday the 13th. The nurses had a ball giving me needles and pills, leaving very little time for me to make the scene.

By the time Saturday rolled around I was suffering from one of the greatest hang-overs, I have ever had, and didn't know whether or not I was in Peterborough or Bulgaria, with all the relatives in visiting my friends. I was still under heavy sedation and again missed most of the days activities.

Sunday finally rolled around, and feeling much better, I was up at 6, washed, shaved, and feeling like making up for lost time. I visited everyone on the floor, and could see most of them were in worse condition than me.

Next time I go, it will only be for a rest, they can keep the needles and pills for those who really need them.

HALIBURTON COUNTY ASSOCIATION JOINS FIGHT AGAINST RESPIRATORY DISEASES

The medical attack on respiratory diseases is being led by the Ontario Thoracic Society, the medical arm of the Ontario Tuberculosis and Respiratory Disease Association.

Sub-committees of the Thoracic Society, to which 150 Ontario Thoracic specialists belong, are at work developing programs in the areas of tuberculosis, air pollution, anti-smoking and chronic respiratory diseases such as bronchitis, emphysema, and asthma. The 41 volunteer associations of the OTRDA across the Province already are involved in the initial stages of implementation on some of these programs.

Earlier this year, the Ontario Tuberculosis and Respiratory Disease Association announced a major shift in its emphasis to the prevention, detection and cure of respiratory diseases — in addition to its historical and continuing involvement with tuberculosis. Since then, OTRDA's volunteer associations across the province have been formulating and instigating local projects. At the same time the Ontario Thoracic Society began an assessment of the medical needs in communities in order to plan effective treatment programs of respiratory diseases.

A report released today by Dr.

Cameron Grya, the recently appointed director of the Ontario Thoracic Society, outlined the approach the medical group is taking.

"Leadership in treatment of respiratory diseases will be undertaken more and more in the teaching hospitals," Dr. Gray explained.

"At a university medical school a good pulmonary program implies a research unit, an acute therapy unit for patients in respiratory failure and a testing unit of a complicated type for pulmonary function studies, where detailed work can be done. It also includes service, if not a ward, for the treatment of respiratory disease patients, an outpatient clinic and ideally a rehabilitation unit. One centre then can be a partial respiratory unit, or a total respiratory unit," said Dr. Gray.

OTRDA will be establishing strong bonds with the medical schools of the province, located in London, Hamilton, Toronto, Kingston and Ottawa. Also, the society foresees respiratory units of a satellite nature in Sudbury, and Thunder Bay, in addition to the treatment units established in the medical schools' teaching hospitals. At present only three medical schools have full respira-

DOLLARS AND GOOD SENSE

by William J. Martin

This column is a regular feature prepared by the Family Financial Counseling Service of the Avco Delta Corp., P.O. Box 2820, London, Ontario. All questions submitted to the above address will be answered in print or by mail. Names will not be used in print. However, all questions should be accompanied by a complete name and address.

\$\$\$

Dear Mr. Martin:

This may not exactly fall into your category, but I wonder how many of your home-owning readers have checked their homeowners' insurance recently. I would lose something like \$15,000 even though I'm covered. You see, eight years ago when I bought my home (it was new) it cost \$25,000. I purchased a homeowners insurance policy covering the house and everything in it. Over the years this home has appreciated substantially, especially

since I have made several major improvements such as a family room and garage, plus other modifications. Now my home is worth close to \$40,000 on the market today.

Even though I couldn't replace some of the possessions in our home if it were lost in a fire, at least I would collect the current full value of the house. I had never thought about updating my homeowner's insurance before, even though I knew my house was worth more today than it was when I purchased it. I'll bet a lot of other homeowners haven't thought about it, either.

Mr. H. I.

You're probably right but I'm surprised that your family insurance man hasn't recommended this before now. I know of some homes that are only two years old and whose value in those two years has increased nearly fifteen percent. In fact,

it's almost appalling how much they have appreciated. This is fine if you're planning to sell at this time, but if you're shopping around for a home, it must be rather frustrating and discouraging.

I suppose the best advice would be to evaluate your home insurance at least every couple of years. This is perhaps true of all your insurance coverage, especially as your salary increases, your family grows, and your obligations become greater.

While I am certainly no expert on insurance matters, I do know that insurance plays an extremely vital role in a family's financial planning so that it would be wise for everyone to make periodic checks at their own insurance — be it life, homeowners and even your car insurance.

Many thanks, Mr. I., for passing along this interesting tip. (Readers, if you have a tip or suggestion that may be of interest to other readers, drop me a line.)

MINDEN MINOR HOCKEY NEWS

This week Minor Hockey in Minden hit the skids. Three teams were eliminated from OMHA play. The Midgets, Pee Wees and Novice packed up their gear as they were shot down in the first round of playoffs.

Coach Gene Whitney of the Bantams, has his team rolling, after eliminating Kinmount, they polished off Sunderland here on Tuesday evening 5 to 1 in the opening game of the best of three series. This is the second round of OMHA playdowns.

In the Bantams 8 to 0 romp over Kinmount to eliminate that team from play, Bev. Hicks, Wayne Harrison and John Welch each scored two goals, with singles going to Mark Walker and Kim Hewitt.

Sunderland was highly rated in the southern section, but they couldn't cope with Minden in the opener. The first period was scoreless, with the play fairly even, then Minden took command of the game and dominated the play for the following two frames.

Scoring for Minden was Bev. Hicks with two goals, this lad played an outstanding two way game. Kirk and Kim Hewitt each scored once as did John Welch. Wayne Moxam in goal, has made the scene once again and played well in the Minden net.

This was a fine hockey game, but fan support is poor — let's get behind this club and give them some support. The second game is in Sunderland tonight. A bus for fans has been arranged and will leave the arena here at 6:45. That's tonight, Thursday, February 19.

The Mighty Minden Mites, after clinching the Kawartha League trophy a week ago, have been working out in preparation for their playoffs for the Kawartha League Championship. They meet Fenelon Falls this Friday night here in Minden at 7 p.m. in the first round of the playoffs. This series is the best out of three and will go back to Fenelon Falls on Saturday afternoon at 4 p.m.

The Pee Wees attended the Little NHL 'B' Tournament held in Lakefield on Saturday. Teams from Lakefield Bancroft, Keene, West Rouge (Toronto). These teams are in a group higher than Minden, but Minden was invited, so attended, and were well received.

Their first game was against Lakefield in the morning which they lost 8 to 1. According to coach Norm Harrison his boys were a little nervous during the first period and got behind 4 to 0. From the second period on they played well. Dean Hewitt scored Minden's only goal.

After the game the team was bused to Grove private Boys College and attended a delicious turkey dinner.

Their second game was against West Rouge 'B' Champions of their league. They were dressed in fancy white and green uniforms, sponsored by Macs Milk as were their Novice and Bantam teams. They were every bit as good as they looked in their complete outfits of socks, pants, sweaters and helmets. Minden played their best game of the year, allowing two goals in each of the first and second periods, and played six minutes straight in the second period short handed, getting three penalties and allowing only one goal in the final seconds of the third penalty. Wes Rouge scored four goals in the third period. Losing 8 to 0 to this strong team, was a credit to the Minden players.

BOARD OF EDUCATION COOPERATES WITH MUNICIPALITIES ON LEVY PROBLEM

Readers will no doubt recall from last week's newspapers that the Municipality of Dysart was concerned about the quarterly payments of school levies to the County Boards of Education as spelled out in Bill 240. Bill 240 set out the quarterly payments, but also stated in Subsection 1D that if a majority of municipalities paying at least two-thirds of the assessment of the county could reach agreement with the county board for a different system of payments, then it would be possible.

At a meeting of members of the Board, Municipal Reeves, Councilors and Clerks this matter was discussed and the recommendation of the Council of Glamorgan Township, with slight alteration, was taken as the compromise solution. At the regular Board meeting of Thursday, February 12, 1970, the Board agreed by resolution to implement the following arrangement for payment of levies:

- 1) 25% of the levy for elementary and secondary school purposes on the 15th day of July.
- 2) an additional 25% of such amount on the 15th day of September.
- 3) 50% of such amount no later than December 15th.

Each Council has been informed of this resolution, and if a majority reply in the affirmative the solution has been reached to the problem.

SIR SANDFORD FACULTY FIRST HAVE BOARD REPRESENTATION

Sir Sandford Fleming has become the first College of Applied Arts and Technology in Ontario to have faculty representation at meetings of its board of governors.

J. Gordon Dagg and Nicholas Wipond were elected by faculty, and attended the February meeting of the Board recently. They will sit for one and two-year terms, respectively.

The representatives' comments on business before the board will be welcome, and individual board members will be willing to sponsor motions on behalf of the faculty, said Sir Sandford President David B. Sutherland.

Under present Provincial legislation faculty representatives cannot initiate motions or vote during board meetings.

"Nevertheless, they will have unlimited opportunity for input into the work of the board," he said.

The representatives have accepted the board's standard operating procedure of reporting with one voice, usually through the chairman of the College president.

ABOUT THE TOWN

With Jeanne Sears

Garwood Stevenson had good luck on Friday the Thirteenth when his car slipped into the river. He escaped through the window but his car was right in the water.

A team of young men from our village have made it into the Junior Championship bowling for the province, defeating other teams in our area. There will be more details later.

Several from the village are in hospitals, May Wright in Civic Hospital and Bill (Pete) Smith in Ross Memorial. All their friends send good wishes.

Mrs. McKay of the local hospital staff was entertained at a banquet by friends at the Wagon Wheel last Thursday prior to leaving for a position in Toronto, with Dr. Fred Griffiths, who practiced here for many years.

Hint of the week — When you are stirring food on the stove, place a small sponge handy, to set spoons etc. on, it will catch all the drips. A quick rinse and there is no mess.

Patients at the local hospital early this week included Mrs. Iris Adamson, Miss Ruth Hirstwood, Mrs. Ella Davis, Delbert Miller, Mrs. Jeannette Nesbit and baby boy, Mrs. Anna Horsey and Miss Laura Shepstone.

Several deaths since last week with sympathy going to the families and friends of Mrs. Calvin Kent and Clayton Hobden; also to Harry Forbes on the death of his father.

We heard on the news today that Britain is prospering in regards to her economy. We wonder what is happening in our rich province with rising costs, the wages never seem to catch up. This winter also is one of the coldest making heating costs higher as mentioned by Gordon Sinclair on his news; where will it all end?

There is a treat in store for Country and Western Fans when the Johnny Cash Movie "The Man, His World, His Music" is showing at our local theatre the 27th and 28th.

Shirley and Charles Brandon and Marguerite and Lance Easton are away on a holiday in California.

Don't forget to keep the Skating Carnival date in mind, March the 7th. These kids put a big effort into this Carnival, and a good turn out would make their efforts worth while.

Has been really cold and wintry with a little fall of snow but the daylight lasts longer and each day spring gets closer. Cheerio until next week.

COUNTY BOARD OF EDUCATION HERE HOLDS INFORMATION EVENING FOR MUNICIPAL REEVES AND CLERKS

(Continued from Page 1) the Victoria Street School, also goes to the special education classes throughout the County assisting with the programme. There are now such classes in the following areas: Archie Stouffer Public School, Minden; Dorset Public School, Highland Grove School, Cardiff Public School and Victoria Street Public School, Haliburton. These classes have been set up in order to allow students who are having difficulty learning to be placed in a smaller class with an experienced teacher who, because of the numbers, would be able to give individual attendance to the learning disabilities of the children involved.

Mr. Salvatori then pointed out that the Board conducted negotiations with the Department of Education, through our member of the Legislature, Mr. R. Glen Hodgson, to try and secure greater grants from the Province. These negotiations were successful, and an additional \$36,000.00 was secured as well as a mill rate subsidy of approximately \$37,000.00.

Mr. Salvatori stated that we were fortunate in having the services of Mr. Beecher Barrett for one-third of his time, assisting Mr. J. Douglas Hodgson, Director of Education, in the inspection of the elementary schools. The Province has been paying Mr. Barrett's salary and expenses. Also, the Region 8 Office at Don Mills provides Subject Consultants in our schools. For example — the week of February 16th will see some 10 Consultants spending the entire week in our schools. Hardly a week goes by that there is not at least one Consultant in the County School system.

Finally, Mr. Salvatori pointed out that the Board members want a good relationship with the Municipal Councils of the County and he asked that when a Reeve or Councillor had a problem that

they go to their representative of the Board or himself, or Mr. J. Douglas Hodgson, Director of Education.

Mr. Salvatori then asked Mr. Crossley, Business Administrator, to answer any questions regarding financial arrangements of the Board. The major portion of Mr. Crossley's remarks related to how the levies last year, owing to lack of information in some instances, had to be estimated and therefore, in line with the provisions of Bill 44, which established county boards of education, when the exact calculation was made, it involved an adjustment to be made in the 1970 levy.

Mr. J. Douglas Hodgson, Director of Education for the County, explained in more detail the value of some of the new programs that have been launched in the county during the past year. He particularly stressed the importance of communications with all the citizens as to what is happening in education. He stated that last year there may have been a lack of communication with the general public, due to the fact that he held both the position of Principal of the Secondary School and Director of Education. He hopes that this situation will be rectified in 1970.

There was then a general question and answer period and Mr. Salvatori asked those present if they would like further meetings. The response was in the affirmative, and future meetings will be arranged.

Mr. S. G. Nesbitt, Warden of the County, thanked the Board for having the meeting and stated that we had made a good start in 1970 to better communications with the various elected bodies in the county. Mr. Nesbitt ended the evening by commenting that he felt there was a new spirit of cooperation afloat.

FINAL ARRANGEMENTS FOR DISPOSAL OF DDT STOCKS

Final arrangements are being made for the collection and disposal of DDT stocks at present being held by residents of Victoria and Haliburton Counties, by the Medical Officer of Health of the Haliburton, Kawartha, Pine Ridge District Health Unit and the public health inspection staff.

Dr. Charlotte M. Horner advises that, following collection of existing supplies of DDT, arrangements will be made for disposal by burial, in accordance with the advice of the Ontario Department of Health and Waste Management Branch, Department of Energy and Resources Management.

It is again stressed that under no condition should DDT be disposed of in toilets or household garbage.

An advertisement in this paper lists the collection points for this area, and all residents are asked to cooperate by taking their supply to the most convenient location, as soon as possible. If you have over one hundred pounds of DDT, retain it and get in touch with the office for further direction. We wish to thank the individual municipal councils and others involved in this project for their cooperation.

TODAY'S CHILD

BY HELEN ALLEN

Toronto Telegram Syndicate

The handsome boy with the enchanting smile is Don, 15 months old. His mother is Anglo-Saxon and it is possible his father is Greek.

Don is a happy, healthy boy who keeps on the go. He'd rather run than walk and finds he can explore new areas by climbing. He likes other children but is quite able to amuse himself if there's no one to play with.

Don is just getting over a period of being shy with strangers and loves attention from people he knows. He's beginning to talk. Don eats and sleeps well and even acquiring six teeth hasn't upset his routine or his disposition.

This appealing toddler needs parents who will enjoy a dear little son without concern about background. To inquire about adopting Don please write to Today's Child, Department of Social and Family Services, Parliament Buildings, Toronto 182. For general adoption information ask your Children's Aid Society.

MEASUREMENTS TO TWO MILLIONTHS OF AN INCH

Measurements to two millionths of an inch (the width of a human hair divided into 1,000 parts) are possible with this guage interferometer, a new teaching instrument for mechanical and industrial technicians at Sir Sandford Fleming College. Instructor Chris Seshadri is seen with the device, which operates on the principal of interference of light to show not only length, but flatness and parallelism of an object.

HALIBURTON COUNTY ASSOCIATION, JOINS FIGHT AGAINST RESPIRATORY DISEASES IN ONTARIO

(Continued from Page 4)

tory units, but Dr. Gray foresees over 15 teaching hospitals with respiratory units established across the province in the next 5 to 8 years.

The Thoracic Society already is at work planning programs for this new environment of close co-operation between the medical schools and the volunteer organizations of OTRDA.

In the area of chronic respiratory disease Dr. Gray points out that education on two levels is needed: professional and layman. Professional training is expected to consist of seminars with

doctors across the country on diagnosis and treatment of chronic respiratory conditions. Also the OTRDA is planning to provide scholarships and fellowships to encourage professionals to enter the field of respiratory disease.

Volunteer groups of the OTRDA have already been at work in the pollution and anti-smoking campaigns, aimed particularly at school children. Dr. Gray explains that this type of activity will be particularly helpful in the future for lessening the incidence of respiratory diseases. "If we can prevent the person from smoking, then I think one might considerably lessen the frequency of the acute respiratory illnesses as well as the development of chronic respiratory illness," the director of the Thoracic Society says.

Across Ontario many of the local OTRDA associations have been visiting the schools, promoting "Rick Raccoon" and his message of the dangers of smoking.

LETTER TO THE EDITOR

Carnarvon, Ont.
February 9, 1970

Dear Sir:

The Carnarvon Zion Church U.C.W. takes this opportunity to express our gratitude for the publicity your newspaper gave our turkey dinner.

Many thanks and continued success.

Sincerely,
E. Harrison

WRITING GROUP FORMED HERE IN COUNTY

On Monday, February 2nd., a group of people interested in writing for pleasure and publication met in the Gallery of the Haliburton Highlands Guild of Fine Arts to form the Highlands' first Writing Group.

At this first meeting were Ray Lawrenson, Mrs. Doris McManus and Tom Farmer of Minden and Kelvin Jermy, Jim Robinson, Alice Dugan and Jack Armstrong of Haliburton. A temporary executive was set up with Tom Farmer as Convenor and Group Chairman and Jack Armstrong who instructed the Summer School course in Creative Writing as Group Secretary.

Convenor Tom Farmer said that the purpose of the Writers' Group is to introduce and help Highland people who are interested in writing for pleasure and publication. The group at present has several semi-professional writers while most have written for pleasure.

The next meeting will be held in the Gallery of the Haliburton Highlands Guild of Fine Arts at 8 p.m., Monday, February 16. Mr. Jim Robinson, a Public School teacher and published writer will give a talk on the advantages and disadvantages of a writers course by correspondence.

Anyone interested in all aspects of writing would do well to attend this meeting.

FUNNY YOU SHOULD SAY THAT
